### **Texas NeuroRehab Center Expands its Tejas Post-Acute Brain Injury Program**

Austin, TX, February, 2021 – Texas NeuroRehab Center is pleased to announce the expansion of its Tejas Post-Acute Brain Injury Program by opening an additional 14-bed building on the same campus as its existing 8-bed building. Tejas is now a 22-bed residential rehabilitation program for patients who have sustained a traumatic brain injury or stroke, located on the 67-acre Texas NeuroRehab Center campus, 1106 W. Dittmar Rd. in South Austin.

“We are excited to grow our post-acute brain injury programs and services, and look forward to its future success,” said Ed Prettyman, PsyD, and CEO of Texas NeuroRehab Center. “As a provider of rehabilitation for brain injury patients for over 36 years, adding a post-acute brain injury program to our continuum of care will allow us to further address the needs of our patients.”

The Tejas Program is also CARF (Commission on Accreditation of Rehabilitation Facilities) accredited, which represents the highest level of accreditation that can be given to an organization and demonstrates the organization’s substantial conformance to the CARF standards.

“We are committed to providing the best possible care to our post-acute brain injury patients at this expanded program,” said Joe Urquidez, MD, Medical Director of Tejas. “Our patient outcomes are evidence of Tejas’ continued success.”

###

Texas NeuroRehab Center, located at 1106 W. Dittmar Rd. in Austin, TX consists of a 47-bed specialty hospital specializing in neurorehabilitation for traumatic brain injury, stroke and spinal cord injury patients and a 22-bed inpatient post-acute brain injury program. For more information, please visit [texasneurorehab.com](http://texasneurorehab.com).

Founded in 1966 as the Commission on Accreditation of Rehabilitation Facilities, and now known as CARF International, the accrediting body establishes consumer-focused standards to help organizations measure and

improve the quality of their programs and services. For more information about the accreditation process, please visit the CARF website at [www.carf.org](http://www.carf.org).
